NEW - HALL CLOSING AT 12:15PM ON WEDNESDAY, AUGUST, 3RD!

Traffic Building Initiatives:

Again this year, the PinS program will take place in the Exhibit Hall. This program continues to offer a unique way for physicists to interact with and learn from our vendors, with vendors providing physics-level applications training classes in a special-purpose lecture room located on the exhibit floor. These are not sales pitches, but practical information for the clinical physicist from the people who know their systems in depth.
- **NEW - Exhibit Hall Guided Tours – Program to be launched at the 2016 Meeting**

Small groups, approximately 10 attendees per group, will be guided through the Exhibit Hall by an AAPM-Member. The groups will visit the designated exhibitors, spending 10-15 minutes at each exhibitor's booth. The Guided Tours will be organized around clinical topics chosen by the AAPM Meeting Coordination Committee. Attendees who participate in the Guided Tours will be given the chance to answer questions on-line after the tours to receive self-assessment (SAM) continuing education credit.
