

AbstractID:9909T title:NewMembersSymposium/MeettheExperts

The New Members Symposium will provide an introduction to the AAPM, our current officers, council chairs and operations. AAPM leaders will remain at the symposium to continue informal discussions following the brief presentations.

The New Members Symposium is followed directly by the Meet the Experts sessions in the same room. Bill Hendee, Gary Barnes, Daniel L. Owan, Jim Hevizi, and other individuals with many years of experience will address current issues and lead discussions on many medical physics aspects of Imaging Research, Imaging Clinical, Therapy Research and Therapeutic Clinical.

Educational Objectives:

1. To introduce new members to the AAPM leadership and operations
2. To provide discussions with experts in medical physics
