

Students

Virtual Residency Fair

We are excited to announce that the AAPM Students and Trainees Subcommittee (STSC) will once again be hosting the Virtual Residency Fair! This year's event will be held every weekday in October from 1:00-4:15pm EDT (10:00-1:15pm PDT). Timeslots will be 75 minutes, and each program will have the opportunity to schedule up to 2 timeslots.

Attendee Registration is now open: <https://forms.gle/oR8cKALXmh8Hz5yv9>

The [2025 Virtual Residency Fair Timetable](#) is now published, showing all registered residency programs and their scheduled timeslots. Additional resources are available here: [2025 STSC Resource Drive](#).

This year, STSC will host several webinars in conjunction with the residency fair. Access to these webinars can be found in the published timetable above.

- 1. Match Experience Panel** (Wednesday, October 8th @ 12-1pm EDT)
Join us for an informal Q&A panel where four residents who have recently gone through the match will talk about the process, their experience, and answer questions from and give advice to future applicants.
- 2. Match Violations Webinar** (Wednesday, October 15th @ 12-1pm EDT)
In this one-hour webinar co-hosted with AAPM Subcommittee on the Oversight of the MedPhys Match (SCOMM), learn how to recognize, handle, and report match violations.
- 3. Internation Candidate Visa Information Webinar** (TBD)
This webinar aimed to equip international candidates with information and insights from current medical physics residents who successfully navigated the residency application process with programs in the United States as international candidates. Join us to hear the perspectives and experiences of current residents, followed by an open Q&A session for any questions you may have.
- 4. CV Preparation Workshop** (October 29th @ 12-1 EDT)
This one-hour webinar covers how to build a strong CV for medical physics residency applications. We'll start with best practices for organizing your research, coursework, and clinical experience, then work through a sample CV together to see these tips in action.

Questions? If you have any further questions about the STSC Residency Fair, please contact Colin Schaeffer (schaeffer@ohsu.edu) and Hadley DeBrosse (Hadely.DeBrosse@osumc.edu).

The poster features a blue and white color scheme with abstract geometric shapes. The AAPM logo is in the top left, followed by the text 'AMERICAN ASSOCIATION of PHYSICISTS IN MEDICINE'. A large blue speech bubble contains the event title. A white box on the left contains the registration status. The bottom right contains the registration link, dates, and contact information. Decorative stars are scattered throughout.
